WHOLESALE E & S LINES INSURANCE BROKERS

**GOT A LITTLE CRITTER YOU CAN'T SEEM TO GET PLACED?**

**LET GADDIS CO. FIND HIM A HAPPY HOME!**

Small commercial accounts can be an afterthought at large wholesalers, often shuffled down to a trainee with a round peg/round hole mentality and little sense of urgency. After several days (or longer) you end up with a declination because your critter doesn't fit in the round hole. Gaddis Co. can handle large accounts with the best of them, but we love the challenge of caging a little critter as much as hunting big game. Even on a \$500 deal, you'll have full access to a seasoned E&S pro who will put in the time and energy it takes to make sure your critter is effectively placed, often the same day you call.

How can we do this? We have binding authorities with the leading E&S carriers and represent over 60 other responsive carriers on a brokerage basis. We have a state of the art paperless system and low overhead. Most importantly, we have a team of dedicated, motivated, and experienced professionals. Give us a try and find out how easy your little problems can be to solve.
